Visit our class web site to find notes, powerpoint presentations, vocabulary words, spelling words, spelling games, math games, and more!

We have more students who have met their Accelerated reader goals! Congratulations to Lewis, Drake, Jack, and Lexi!

I had a few students ask me to wait until next week to send in the book order because they had forgotten their slips. I will wait until next Wednesday or Thursday to send in this order.

Here is what we will be learning about next week:

Math - We will work on lessons 3.2 through 3.7 on multiplication. We are starting multiplication and will go through the chapters rather quickly. Work on your facts each week at home to gain fluency!

Language - The students will work on compound sentences.

Science - The students will continue learning about animals. We will be discussing the types of shelters that they live in. We will also have an Ag in the Classroom presentation on Tuesday!

Social Studies - The students will continue learning about natural resources in chapter 2.
